## Education

### University of North Carolina at Chapel Hill – NC

Aug. 2025 – Present

*Major in B.S. Computer Science, Minor in Music*

*Chapel Hill, NC*

- Relevant Coursework: Introduction to Programming, Data Structures & Analysis, Foundations of Programming, Systems Fundamentals

## Work Experience

### ArtsNeeds Graphic Design Intern

June. 2026 – Present

*Chapel Hill, NC*

- Designed engaging social media graphics, marketing materials, and promotional content using Canva.
- Collaborated with the marketing team to execute marketing campaigns that increased audience engagement.
- Applied user-centered design principles to produce visually compelling and accessible content.

### Cape Carteret Hospital IT Intern

Jun. 2023 – Aug. 2024

*Morehead, NC*

- Provided technical support to hospital staff by troubleshooting software and network-related issues.
- Assisted IT professionals with system maintenance and workflow improvements across departments.
- Tested software and documented monthly data to monitor system performance.

## Projects

### Budget Bloom:

*A gamified mobile budgeting application that helps users build financial literacy through interactive learning and personalized guidance.*

- Designed the application's interface in Figma, then built a gamified budgeting learning app using Swift, SwiftUI, and Claude API.
- Implemented interactive features that teach budgeting concepts through engaging gameplay.
- Used Claude API to provide personalized budgeting guidance for users.
- Deployed at: [Budget Bloom](#)

### Fork in the Road:

*A point-and-click adventure game built in Unity that raises awareness in emotional challenges.*

- Developed a narrative-driven point-and-click adventure game in Unity using C#.
- Designed interactive gameplay mechanics that encourage healthy coping strategies.
- Implemented interactive scenes, dialogue systems, and storytelling.
- Play the game: [Fork In The Road](#)

## Extracurricular Activities

### Edge Carolina: Speakers Director

Jan. 2026 – Present

*Student Mentorship for Software Project Development*

*Chapel Hill, NC*

- Coordinated outreach with technology professionals to organize educational speaker events
- Planned and hosted speaker events that connected students with leaders in software, design, and entrepreneurship.
- Collaborated with executive board members to coordinate logistics, marketing, and event execution.
- Fostered a collaborative environment by co-leading meetings and mentoring members during project development.

### App Team Carolina: Club Member

Aug. 2025 – Present

*Student Mobile App Development Organization.*

*Chapel Hill, NC*

- Developed user-centered mobile application prototypes using Figma and modern UI/UX design principles.
- Created wireframes, interactive prototypes, and reusable design components for collaborative projects.
- Worked closely with developers and designers to iterate on interfaces based on team feedback.
- Contributed to brainstorming sessions and design critiques throughout the development process.

## Technical Skills
